

Technical Requirements for
CLEANSER, SCOURING POWDER

PRODUCT SPECIFICATIONS

- Net Weight (min.): 350 grams
- Chemical Composition:

REQUIREMENT	TYPE II	
	% Minimum	% Maximum
Moisture & Volatile at 105°C, ±°C	---	8
Free Alkali as NaOH	---	5
Matter Insoluble in water	40	97

- Brand shall be engraved/embossed/printed/permanently stickered on the item
- Container must have adequate dispensing apertures.
- With adequate instructions for proper usage and disposal.

EVIDENCE and VERIFICATION

- **Documentary Evidence to be submitted during Post-qualification:**
 - o Updated Material Safety Data Sheet with the following information:
 - With adequate instructions for proper disposal.
 - o Valid test report from a government laboratory testing center or government accredited private laboratory testing center or third party laboratory testing center. In case there is no available government laboratory center or the required testing method is not available, the test may be conducted by a government accredited private testing center; or if still not available, by a third party laboratory testing center.
 - Valid test report showing compliance to the following parameters:
 - Moisture & Volatile at 105°C, ±°C: 8% max.
 - Free Alkali as NaOH: 5% max.
 - Matter Insoluble in water: 40% min.; 97% max.
- **A Confirmatory Test during delivery** from a government laboratory testing center or government accredited private laboratory testing center or third party laboratory testing center. In case there is no available government laboratory center or the required testing method is not

available, the test may be conducted by a government accredited private testing center; or if still not available, by a third party laboratory testing center.

- o Valid test report showing compliance to the following parameters:
 - Moisture & Volatile at 105°C, ±°C: 8% max.
 - Free Alkali as NaOH: 5% max.
 - Matter Insoluble in water: 40% min.; 97% max.
- **In-House Test:**
 - o Determine the weight using the digital weighing scale.
 - Net Weight (min.): 350 grams
 - Container must have adequate dispensing apertures.
- Two (2) plastic containers with marking/labeling shall be provided by the bidder during the submission of additional post-qualification documents for verification of the product specifications.

PACKAGING

- Forty-eight (48) plastic containers per carton or Standard packaging of the manufacturer.
- Additional Requirement on Packaging, refer to the attached Annex "A"

MARKING/LABELING

- Shall conform with the minimum Marking and Labeling Requirements under Article 77 of Republic Act 7394 (Consumer Act of the Philippines) whichever is/are applicable among those requirements to this item.
- Brand shall be engraved/embossed/printed/permanently stickered on the item
- With adequate instructions for proper usage.
