Comments, Feedbacks and Suggestions:

Systems

- Company details on Philgeps website needs updating as it doesn't reflect membership status after 2017
- Activate your system where transaction can be done online for the convenience of those who will be coming from provinces
- Data as to the organization profile on type of membership should sync with the approved application.
- Just want to suggest to please improve your online facility. We do have pending transactions because of this. We keep on waiting for the password and username.
- Please make bid matching filtered by province through email work again. It worked around 2 years ago before the update but now it would send us opportunities for the whole country and it is difficult for us to filter by region/province manually.
- Sana ma ibalik na yung Bid Matches at sa ka Pending Task para easy na mag scan ng mga Projects at Mag upload ng Documents

Procedures

- - payment via credit card or other online services (dragonpay).
- - Processing time should be shortened
- 5 working days is a quite long process but everything is well organized.
- 5 day processing. Matagal.....
- May I suggest that the number of days for approval or evaluation be shortened into 2-3 instead of 5 working days, while the release of approved Platinum certificate in one (1) day upon submission of oncoll slip/payment since it is approved and or already evaluated or passed.
- Additional bayad center to accept payment. Accessible customer service telephone number.
- Another system for payment

- Please make it a one day process
- Please make other banks as your depository partner, not only Landbank if possible..
- Appreciate if supplier@ps-philgeps.gov.ph would address or at least acknowledge email sent to the mentioned e-mail add for the sender to know whether it has been received or that the e-mail add is working.
- Baka puwede iklian lang yong days for evaluation ng mga uploaded required documents namin. Maybe 48 hrs only after uploading. Thanks you
- Please lower the registration fee from 5000 to 3000. Please lower the processing days from 5 days to 2 days.
- My suggestion is make it faster, just 3 days or one week only for processing..i got 2 weeks more..and just wasting time..
- My suggestions po sa pagbayad ng cert. fee sana makipag tie-up po kayo sa mga bayad centers kasi san Land Bank medyo matagal magbayad dahil napakahaba ng pila at napakadami ng kanilang customers/clients lalo na dito sa Northern Samar Branch napakatagal kung pumila makabayad lang sa teller nila.
- Can you make your registration fee more affordable?
- Can you please make it 3 working days of process instead of 5 days
- Credit card payment online. Renewal every 5 years.
- If all documents are complete, I hope the processing time will only take within 24 business hours just like the Regional BIR Office at Fisher's Mall, Quezon City
- If possible add more bytes for uploading of documents, thanks.
- If possible can you increase the maximum MB for the attachment
- I suggest for Philgeps to conduct an audit if government agencies are following the procurement law. I had many encounters wherein local government agencies circumvented the law in order to favor certain suppliers. They just post the bid notice in Philgeps website but in actuality they do not conduct pre bid conferences and they do not sell bid documents and open the bid to new would-be bidders. They control the selling of bid documents so favored suppliers will bid and win. The exercise of some agency makes the law futile. You can contact me if you want the details. Thanks.
- I hope you send notification to us after 5 days if our application for renewal was successful or not and no need for us to send someone to verify about our application because I sent an online application for renewal 3x, it takes too long to reply to our follow up email.
- Hope to have a payment thru credit card
- I suggest to shorten the processing time from 5 working days to 2-3 working days.
- I would suggest that the renewal of membership be every 3 years, if possible.
- Next time sana kung 5 days ang release ng certificate or approval kapag nagsubmit online, sana natupad ang within 5 working days approval.
- Not all applicants or authorized party are proficient with computers. At least one staff should be provided for this task mainly to assist the customers.
- Sorry for the delayed survey. I was contemplating whether to disclosed this or not. Survey above is based from my walk-in application experience. I got my certificate in your office around the month of August. I uploaded and waited for 5 working days to pay. and, I just want to commend your staff for being accomodating ang responsive with my queries and predicament. Especially, the guard and those assigned infront answering queries. Just one thing, the circle of us suppliers are not that big... we know our friends and competitors in the business. I'm having transactions with PhilGEPS for quite sometime now and I must say, that NO "under the table" transactions is known in your office. Not until now, one of my friends (also with PhilGEPS Platinum certificate) got their certificate within the day in your office - around the same month of August. You know what I mean, they just said to me "Kelangan mo lang matsempuhan at makausap yung tamang tao". They didn't get his name because the officer said that it was not allowed. I just asked what the officer looks like, they just said "Siya lang naman mediyo malaki ang katawan at moreno dun". Now, the question is, did they give him something in return? Yes. Because of this, we are expecting the same "fast track" treatment that if we go to your office we can get the certificate right away, well not in my case. I still needed to follow the proper 5 working day process. Just an advice to that officer, we business people know each other, in short, mga chismosa/chismoso kami. I'm just disappointed that your office has a rotten tomato.

To PhilGEPS - Please do not follow the steps of other governments. offices (BIR, City Hall etc.). Your office staff are very promising, hoping that one person will not affect the others. This might cause untimely discussion inside your office and I hope this will be resolved soon. Please do understand if I will not disclose my name nor my company name or my friend's company name for anonymity (and safety).

PS.

Aside from this survey, I saw your posting about integrity inside your office. This will also be sent to that email.

Facility / Environment

- A bigger space(office) maybe?
- Additional parking please.
- Additional Table and Colder Aircon
- Aircon is too cold, other than that perfect service and kind and helpful employees.
- Bigger office much better.
- Create 1 satellite office in each region please
- Hope to transfer your office to a more convenient place. Good Job!
- I suggest that you open branches near us like for example in Baguio.
- If possible, set up satellite branches in different regions to accommodate wider applicants.
- It would have been better if we have a philgeps office in our area or even a booth every time there's a yearly renewal for business permit in the municipality.
- Lobby and waiting area is too small.
- Location must be more accessible. Thank you and more power. God Bless.
- Location of philgeps office should be placed in a more easy to access area
- Location. Please move to a more spacious location like before (Ortigas).
- Needs a comfort room inside the PhilGEPS office.
- New location is not good.
- Not a good parking lot.
- Please install aircon & additional personnel. Thank you.
- Since this facilities and certificate is required to be qualified in any government bidding process, i may suggest that an office with parking lots shall be accessible to all applicants (office intended only for this department or agency)
- Spacious office

Communications

- Accessible contact numbers, to lessen the time of the client going to your office if the purpose is only inquiry.
- Please just answer your customer service hotlines and reply to emails. It took me 2 days of continuous calls to your hotlines to speak to someone.
- No one is answering the advertised PhilGEPS direct lines AT ALL TIMES
- May I suggest that Philgeps can provide a landline number and cellphone number which can be contacted. All the numbers cannot be contacted from 8am.
- It's really hard to get in touch with your hotline.
- It's hard to contact Philgeps thru provided contact numbers
- If possible, have a mobile number for the help desk because it is so hard to contact your landline numbers.
- I suggest that you should at least provide a phone number or local number where we can contact you if we need any assistance in your good office.
- I hope you could provide cell phone numbers that are easy to communicate. Overall I was satisfied with the service you guys provided. Keep it Up and God bless your organization.
- Need new contact no. Thank you.
- I have been trying to call your landline but it always has the same answer "Our customer service representatives are busy.. please call later" for x times. thanks
- Hoping that telephones will be more accessible.
- Accessible/ additional phone agents. Prompt email replies.
- Add more contact numbers, if possible.
- All I could say, please answer the phone.
- My concern is to improve your telephone line, it's very hard to contact. I also think the fee is too expensive for 1 year, make it for two years. Thank you!
- It is so hard to contact the telephone numbers of Philgeps :-(I tried calling everyday for 1 whole week - morning noontime and afternoon but still I cannot talk to a person. I had a problem when filling up the form online since I cannot input the date. Fortunately, after trying also different time in filling up the form - I was able to successfully fill up the date at 1:30 early in the morning since a friend advised me to do it early since you have a quota per day.
- It takes time to connect thru your landline nos.though I got immediate reply thru your email address. The annual fee is a bit high. (just a comment).Thank you for allowing the renewal of platinum membership be done through online especially for us in the provinces.
- Add more landline because it is very difficult to contact your landline

- Adequate info dissemination for the requirements and procedures. Facilities could be provided for the convenience of the merchants. Overall, the services, accommodation and assistance of the staffs were remarkable
- It takes time to contact your numbers and Helpline also nobody answered the emails,
- It would be better if someone will answer from the hotline.
- All of your telephone numbers are always busy..only operators answered us.i hope next time it will be easier to connect with your office.
- Available e-mail address and contact number for communications, please. Thank you.
- Based on experience, I think you should also post in your website the detailed Step by Step Procedure of a certain transaction. Not all applicants are very good in IT. Thank you!
- Better phone customer services. Pls. nobody answers the phone.
- Better to have easy access in terms of answering phone calls because it took me how many weeks to contact all your prescribed phone numbers to raise queries on registration renewal. thank you.
- Comment ko lang yung pag tawag lang sa landline sa pag follow up sa manila, medyo its take hour. Nasa Mindanao kami, lagyan sana ng cellphone no. globe or smart, para kung matagal maliit lang mabayaran namin sa globe or smart kasi may unli na tawag, tanx
- Difficult to contact,busy phones.
- Enhance your emails and online application to more prompt responses.
- Had a hard time calling your trunkline. I also tried using messenger live support but it doesn't work as i waited too long for a response but it's an auto attendant reply. It would be much better if there's a person answering instead as i did not get the help i needed. It's good that when I finally talked to Nicole from your customer support this afternoon that I got the help I needed and she emailed me the certificate immediately and I am happy to which I am satisfied.
- Hope that you'll change your phone numbers for the efficiency
- Hope that your website is up and running and that your contactable always thru your landline numbers for easier communication.
- Hope to have better service via telephone call
- Mahirap lang po komontact sa phone laging all agents are busy ang sagot sana maresolba bihirang bihira po na may makausap
- Phone lines just keep on ringing. Please add additional customer service
- Phone calls are not answered. I suggest that you improve your phone calls as we can easily process our renewal faster and we can save money and time especially if we are from a far away province (Baguio Benguet). I hope I don't have to come here in Manila anymore on my 2021 renewal.
- Phone keeps on ringing... nobody's answering my call. Line 6406906-09 is not responsive.
- Phone number keeps on ringing. Cannot talk to any personnel over phone. Pls add personnel. Much better offices in provinces.
- Please add more telephone for hotline & inquiries & please attend urgently
- PLEASE ANSWER THE LINE OR PROVIDE MORE CONTACT NUMBER.
- Please be active in online chat support some of your client are not near in your branch
- Please be more accessible via phone so that we can personally talk to someone with knowledge about our PhilGEPS concerns. Thank you!
- Please indicate contact numbers that are easy to contact, because every time we make a call for you, the telephone operator always says that the customer service representative is busy assisting other clients from (632) 640-6906-09. We never had a chance to talk to anyone of them , that's why we keep on relying on emails.Please assign one sales/customer representative to every organization/company so that it is easy for us to follow up and communicate with the person in-charge to us to facilitate our application/renewal nexttime.Thank you for your immediate response and sending our new certificate yesterday. More power to you!
- Poor PhilGEPS Hotline
- Pls. assign a real person to your customer service lines. Computer generated answering machine all the time is very impersonal & cause a domino effect in everybody's service
- Regarding the contact numbers, I've been trying to call several times but I was not able to connect. Maybe it will also be better to provide us w/ cellular numbers.
- Sa hotline lang before sobrang hirap mkacontact at saka ang tagal magreply sa email so sana this time mas maimprove sya,Thanks.
- One thing that we find not good with PhilGEPS is the way they handle the hotline care. It is so hard to contact them thru telephone numbers because no one is answering. My call recently was answered after 5 attempts.

- I am fortunate I have met an accommodating help desk officer when I came back to your office. And when I did the follow up with our renewal after five days, a polite personnel answered and eagerly assisted me with my queries. Please do keep help desk personnel accommodating, responsive and polite especially to walk in clients who travel far just to reach your office to verify and comply with necessary documents and procedures. Thank you.
- I am generally satisfied with the service provided for my request for an upgrade. However, I was not informed that you will temporarily cease sending bid notices to my email during the processing of the upgrade? I thought something was wrong with my email. I tried calling your customer service but either it was busy or no answer. But this is just a minor concern for me.
- I am truly happy that the renewal of our Platinum Membership and the accompanying certificate, this time, have been facilitated quickly! And, all were through your online facility. Meaning, less effort, time and cost to us! Thank you and more power!

- I called up the hotline and a certain Mr. Richard was the one who got the call. He is very courteous and instructed me on everything.
- I can say that I am very satisfied with Online Platinum Application. It is more convenient compared to the previous way of renewing.
- I love how online transactions work. However, may I suggest please accept onsite renewal like DTI and other agencies. Lalo na po kung complete naman ang documents. Also, please sana naman within 5 working days, may reply na po if okay na yung documents submitted and/or payment instruction. And after that, sana po within 5 days after payment, ma-email na din po ang Certificate. (peace!)Big help din if merong accessible na hotline, chatbox, or any way na pwede namin kayo madali macontact, kasi more than 10 times ako tumawag sa hotline in different days, hindi ako makacontact. Even sa email, wala po nasagot ng query ko. So from Cavite, we traveled pa to ortigas to ask questions and still online application padin. Online renewal saves a lot of time and effort, pero sana naman po may platform where we can easily talk and reach out to you. Thanks and God Bless.
- I really appreciate your quick ,prompt service and guidance. Your instructions are very clear. God Bless.
- I was really amazed how fast you accomodate my request for a new platinum membership certificate. I received the approval 4 days upon my submissions. Excellent Team! You deserved an ADDITIONAL BONUS!!! So far the quickest among government agencies in terms of response time and delivery of request.
- I was very happy that you replied our mail asap...not like before it takes a month to wait for the certificate..we are very thankful for the immediate reply..have a nice weekend...god bless
- I would like to say THANK YOU for the great service you rendered to us.
- I'm glad that I received our updated Platinum Certificate in 1 week. Got the result faster than before of not having follow-up the PhilGEPS. Keep it up!
- I'm very much impressed on how our application was handled and processed. At first, I didn't know how to start and I didn't know the procedure to follow. But the instructions on your website are so simple that I followed it easily. Before, I'm apprehensive in applying for Philgeps accreditation because of the red tape in government transactions. But now everything has improved. It is only in BIR that needs to be improved. Since Philgeps accreditation needs to pass through BIR, it is with this agency that delayed the process. But insofar as Philgeps is concerned, two thumbs up. May your tribe increase.
- I'm very satisfied with the way they handle my renewal. I find them very helpful and very courteous.

- Kudos to Sir Rey who asked what my concern is and gave me a number and asked me to wait. Informed me that I need to wait for my number to be called. Also to Marry who answered all my queries and made the transaction fast. She was very accommodating unlike the past years that I've been renewing our membership, most of the guys I encountered will inform you in a loud voice of your problems etc. My transaction went well and fast even if there were a lot of people. They managed to cater everyone.

- Personnel are very accommodating and the process is fast.
- Philgeps hotline is easy to contact now, i called once and my concern was addressed promptly, approximately 2 1/2 - 3 minutes including the recordings and waiting time. i would just like to suggest please lessen the recordings about the contact number (hotlines) and email addresses.
- PhilGEPS is a highly efficient organization. I'm very thankful for their help, I appreciate it so much. More power to your organization. I wish you all the best. May God bless everyone out there. - So much improvement in terms of promptness of responses to queries, the approval is quite fast as well (within 24 hours), compared to prior year/s, it took us several days if not week/s before we received the Platinum certifications.
